

## **Scholarship Opportunities for the Graduate Certificate of Paediatric Respiratory Science and Graduate Certificate of Paediatric Sleep Science**

The Graduate Certificates in Paediatric Respiratory Science and Paediatric Sleep Science, University of Western Australia commenced in 2005.

These courses combine the teaching, research and clinical expertise of the School of Paediatric and Child Health, University of Western Australia and the Department of Respiratory Medicine, Princess Margaret Hospital to deliver two unique postgraduate qualifications that will encourage a better standard of care for children with respiratory or sleep disorders.

These exciting courses are offered via a number of flexible delivery methods using electronic and on-line technologies. Course materials are available using both the state of art e-learning WebCT system and via a CD-ROM package distributed to each student. This unique combination provides great flexibility in delivery and makes the courses accessible to all with the requisite computer and web access.

The School of Paediatrics and Child Health is offering five scholarships valued at \$1000 AUD to students enrolling in either course.

Applicants must be a financial member of ANZSRS, ASTA, TSANZ, or ASA, have graduated in medicine, science or an allied health degree, meet all University of Western Australia domestic enrolment pre-requisites and have submitted an enrolment application in the Graduate Certificate of their choice prior to Monday 30 April 2007.

Places for the July 2007 student intake are limited and prospective students should check eligibility criteria and complete the application form shown overleaf.

Further information can be obtained from the School of Paediatric and Child Health by emailing Jo Smith ([jsmith@meddent.uwa.edu.au](mailto:jsmith@meddent.uwa.edu.au)).

The Graduate Certificates of Paediatric Sleep and Respiratory Science are supported by an unrestricted education grant from the ResMed Trust Inc and include equipment and software provided by QRS Diagnostics, Mayo Healthcare, Viasys Inc and Compumedics.
